##### Apologize

The first step to improve things between the two of you is to accept your mistakes and apologize. Don't just say sorry. Take efforts to make it look and sound like a proper apology, one that is meant from the heart. Apologize for every single mistake of yours. Do so genuinely and tell him/her how miserable you are without them and how the guilt of your mistakes is killing you. If it doesn't work the first time, apologize as many times as needed, till his/her heart goes out to you.

##### Speak the Unspoken

Sometimes, there are a lot of things that remain unspoken between two people and that leaves a lot of place for misunderstandings and wrong assumptions. Speak out whatever is in your heart and convey long hidden feelings to the best of your capability. If the other person has stopped talking to you, write him/her a letter and tell them how unsaid words created undue problems.

##### Forgive Them

If you want to get someone back after they have cheated on you, the first step to getting your ex back is to forgive them. Since you have already made this decision, think that every human makes some mistakes and just let it go. Tell him/her that you are ready to give another chance provided they don't repeat the same mistakes again. This time, take your time to trust the other person again.

##### Don't Give Up!

If he/she is just not ready to hear your apology and has lost complete faith in the relationship, don't give up! Stay at it and do whatever is necessary to gain the trust and faith back again. Keep on asking for a patch up and take efforts to really improve things this time around. If you'll broke up due to specific issues, work on them and try to show the other person how hard you're trying to make changes for the better.
