How to Get Your Ex Boyfriend Back Fast

How to get your ex boyfriend back fast? It could be tougher than you might anticipate, but there may be something you can do about it. Read on to find out ...

Life is never easy and when it comes to the matters of the heart (not quoting Tracy Chapman's song here); things could seem far more than simple. Love is one thing that we keep falling for, wound in its trap, and find, either endless happiness or sorrow. But nonetheless, we always muster the courage and desire to get back in the game whenever possible. When happy endings are bound to happen, nothing makes the heart jump up and down with joy. On the other hand, not every love sees the light of the day and for whatever reason that may be, it hurts like anything. Relationships are not easy and love is *the* most complicating factor to ruin everything that's been going right. A sour relationship is what brings the unforeseen storm that keeps revolving around us with no glimpse of an end. So how does this affect you? Yes, you. The relationship that you once thought was your savior in this cruel world has left your side and all you are left with the everlasting questions in your head as to what led to all of this. Why did he have to leave? What should I do or say to him that'll bring him back in my arms? These questions are important but the answers are unknown. Wondering how can you get your ex boyfriend back? *That* would be the question to look more closely at.

So... is there a way? Of course, when you are stuck in this situation, you can't help but make silly choices and threaten to mess things up, more than they already have. I can say this for sure because even I have been in a similar situation. And at that time, there doesn't seem to be any solution that feels wrong or right. Every advice, suggestion from your friends has been tried and tested, but in vain. Perhaps you weren't even thinking about all this and were really strong after making the decision of breaking up. But when you saw him again, after a while, all those quiet, submerged feelings for him came rushing back and you can't help but wonder, what if. Well, I want you to know that "what if" shouldn't be the option here. If you really love him and want him back, not just because you are jealous, lonely, or desperate to be in a relationship again, there is something you can do. And I am here to help you know **how to win your ex boyfriend back fast** (as much as I can).

need to get through to him and let him know that there are some things you wish to speak to him about. And then, you apply the following methods for how to get your ex boyfriend back.

Clear the Misunderstandings

Did you two have a fight or disagreement that was the cause of the breakup? Do you still have things to clear out between the two of you? Then do it. Maybe he is angry with you about something and has some misunderstandings that are keeping him from you. Open a dialog; tell him that the fight/argument which you had, they cannot be more important or crucial to have separated you two. Give him a chance to say what's on his mind as well. But try to stay away from another argument. Don't blame him or take the entire blame of the breakup onto yourself. You want to make him realize that you still have feelings for him and that you two can work together to bring that love and trust back in your relationship.

His Dating Situation

If you had a good, long relationship with him in the past, then remember this – he may not be completely ready to date anyone else. That is only for a while and this is when you make your move to **get your ex back**. Chances are that even he is missing you but due to what happened, he may be confused as to what he can do. Take this chance to apologize to him and also remind him of the wonderful times you've spent together. Be strong when you speak to him and show this new look/attitude of yours.

Now on the other hand, he may be showing interest in someone else and has perhaps, starting seeing someone else. Don't panic. It's far too soon for him to be serious about this girl and you can swoop in. If you want to know how to get your ex boyfriend back when he has a new girlfriend, then bump into them out somewhere (but don't do this way too often or else you might look like a stalker). Make this chance encounter as if he was the one who bumped into you and not the other way round. Seem confident, calm, poised, and composed. No desperate measures are required here and you don't need to be rude or mean to the girl. Be nice to them but don't forget to flirt with him lightly. Walk away and then call him later in the day, when he is alone, to speak to him. After bumping into you earlier, he *will* be thinking about you.

What You Shouldn't Do...

Apart from the things that you should do to know **how to get your ex boyfriend back**, there are some pitfalls you need to stay away from. I know that you may not be very keen on following these suggestions, but in the long run, they will help.

- **Don't**...call him every now and then. Give him space to think.
- **Don't**...make him feel sorry or take pity on you.
- **Don't**...follow him everywhere he goes.
- **Don't**...keep apologizing for everything that happened.
- **Don't**...make a promise that you will change instantly.
- **Don't**...tell him that you "love him" or "miss him" every chance you get.

You want him back, that's certain. But that doesn't mean that you need to look desperate and needy in the process. There's no need to push him into making a decision at the moment. A guy will always run away from girls who keep pushing them and want to make a desperate attempt to get back together. Calm down, chill, and take the situation very slowly. Keep a cool head. You will need it.

As I already mentioned earlier, if you want to follow the suggestions on **how to get your ex boyfriend back**, do them for the right reasons. And if you feel that he is worth every touch methods you are taking right now, then go for it. There's no turning back for the love of your life.
